

**CITY OF ANDOVER**  *Martin's Meadows* On the Rum River  
Open Space

In December 2009, the City of Andover completed the purchase of this beautiful property. Nearly 40 acres of oak forest and meadows are preserved.

Martin's Meadows is the first property purchased as a result of the 2006 Open Space bond referendum. Andover's Open Space Advisory Commission has established criteria for evaluating properties for potential acquisition. It is also developing a management plan for ensuring that the natural qualities of Open Space properties will be preserved for the enjoyment of future generations. The commission is evaluating additional properties for future purchase. If you know of a high-quality property whose owner would like it to be similarly preserved, please call Andover's City Planner at 763-755-5100.
